GENERAL CONDITIONS OF SALE

GENERAL CONDITIONS OF SALE GOVAERTS RECYCLING

1. Scope

These general conditions of sale shall govern all commercial relationships between Govaerts Recycling and the client, to the express exclusion of the general conditions of the client. The client shall be deemed to have taken cognizance of and accepted the general conditions of Govaerts Recycling. Conditions other than these general conditions and also derogations from them shall not be enforceable against Govaerts Recycling unless it has confirmed them in writing.

2. Orders – order confirmations

Offers of Govaerts Recycling shall be binding only if it has signed them and they shall be valid for one month from the date of signature, unless otherwise stated. The agreement shall not be established until such time as Govaerts Recycling confirms the order in writing. Cancellation of an order, including partial cancellation, shall cause client to owe fixed compensation equal to 20% of the selling price of the goods exclusive of VAT – without prejudice to proof of higher damage – by way of recompense for incurred damage and administrative costs. The compensation owed shall be increased to 100% of the selling price if performance or preparation of the order or job has already commenced.

3. Delivery

All stated delivery times shall be approximate and shall not bind Govaerts Recycling. Delays in agreed delivery times shall not entitle the client to claim compensation or to rescind the order. Unless otherwise agreed, the delivery shall take place ex-works at the relevant site of Govaerts Recycling (Belgium). From that time onwards the entire risk attached to the goods shall transfer to the client. Goods shall always be shipped at the risk and expense of the client. If Govaerts Recycling is required to organise shipment, it shall always do so as an agent of the client.

4. Price - payment

Prices quoted by Govaerts Recycling shall be without any obligation. Unless otherwise stated, all prices shall be stated net, without discounts, ex-works, exclusive of packaging and exclusive of taxes, VAT and other costs. Govaerts Recycling expressly reserves the right to increase the agreed price in the event of an increase in any cost price factors (including but not limited to commodities prices, energy costs and government levies), even if the increase results from foreseeable circumstances. The new price structure shall be made known to the client in writing or by e-mail at least one month before it takes effect. Invoices may be validly disputed only by registered letter within a term of 8 days after the invoice date. Unless otherwise agreed, all invoices shall be payable 30 days after the invoice date. Payment shall be made to the registered office of Govaerts Recycling at Alken (Belgium). Any unpaid invoice shall automatically be increased from its due date without formal notice by penalty interest calculated at a rate of 1% for each commenced month. Additionally, non-payment by due date shall automatically result in the invoiced amount being increased without formal notice by fixed compensation equal to 10% of the owed invoiced amount, subject to a minimum of €150.00, except where the actual debt collection costs – including costs of legal assistance - are higher.

5. Complaints

At the time of delivery the client shall sign the delivery note or bill of lading for receipt of the goods. At the time of receipt of the goods the client shall immediately inspect them (quantity, quality, conformity, etc.) and shall check whether they are in good condition. Any visible defects shall be put in writing on the delivery note or bill of lading and must be notified to Govaerts Recycling by registered letter within 3 working days of delivery, whereby the client shall provide a detailed description of the defects. In the absence of this the client shall be deemed irrevocably to have inspected and accepted the goods. Without prejudice to the foregoing, complaints concerning visible defects shall be considered valid and investigated only if the client has not yet used the sold goods. The liability of Govaerts Recycling for any hidden defects shall be limited to defects that become apparent within 6 months of delivery of the goods. Complaints about hidden defects shall not be entertained unless the client notifies Govaerts Recycling of them by registered letter within 8 days of their discovery. Govaerts Recycling may consider a complaint inadmissible if this notification is not accompanied by a detailed description of the defect and all relevant information (including the order and invoice numbers). In the presence of Govaerts Recycling, the client shall at its expense enable an objective inspection of the goods that the client considers defective. Complaints by the client shall not

be entertained unless the client stores the ordered goods in correct conditions in accordance with the highest standards and safety norms customary in the sector. Complaints shall never be accepted if the goods have been treated or stored injudiciously, or if changes have been made to the goods. If a complaint was made punctually and legitimately, the liability of Govaerts Recycling shall be limited to the free replacement of the goods found to be defective or a refund of the price of the sold goods. The notification of complaints shall not entitle the client to postpone or to suspend payment of the price, not even in part, or to cancel the entire order or delivery.

6. Liability

The warranty of Govaerts Recycling during the warranty term of 6 months shall never include anything other than the free replacement of goods found to be defective or the refund of the price of the sold goods. No claims whatsoever can be made validly against Govaerts Recycling after expiry of the warranty term. The total liability of Govaerts Recycling and of its agents shall be limited in all instances to the value of the sold defective goods, except in the case of fraud or deliberate misconduct. Govaerts Recycling cannot be held liable for any other direct or indirect damage, including but not limited to damage to health, damage to property, financial losses, lost profits, lost turnover, personnel costs, damage incurred by third parties and loss of income.

7. Reservation of title

The delivered goods shall remain the exclusive property of Govaerts Recycling until receipt of full payment of all owed principal sums, interest and ancillary costs. For such time as Govaerts Recycling reserves title under this clause, the client shall remain liable for keeping the goods in good condition and client shall assume the duties and responsibilities of custodian of the delivered goods and shall therefore store them in a suitable and clean place and watch over them in accordance with the highest standards and safety norms customary in the sector. The client may not modify, pledge, sell or in any other way encumber the goods. During this period Govaerts Recycling expressly reserves the right to require the return of unpaid goods, regardless of where they are located, and the client shall be bound to provide all cooperation on pain of a penalty of €1.000 per day.

8. Dissolution

Without prejudice to its right to compensation for damage, Govaerts Recycling shall have the right either to suspend performance of the agreement and discontinue all further deliveries, or automatically to dissolve the agreement by simple notification by registered letter in the event of non-payment of invoices by due date or non-fulfilment of any other contractual obligation by the client. Discontinuation of performance of commitments by Govaerts Recycling shall never entitle the client to any kind of compensation for damage.

9. Force majeure

If force majeure prevents it from performing the agreement Govaerts Recycling reserves the right to terminate the agreement without any kind of compensation being claimable. Force majeure means any event that by reasonable standards is beyond the control of Govaerts Recycling, including but not confined to strikes, lockouts, traffic disruptions, telecommunication problems, fire, government or administrative regulations and requirements, supply difficulties, shortages of materials or the lack of products for production and non-fulfilment by suppliers.

10. Applicable law - forum

All sales agreements between parties, and also these general conditions of sale, shall be governed by the laws of Belgium. In the event of a dispute, the courts of the district of Tongeren shall have exclusive jurisdiction.

11. Final provisions

Should one or more of these conditions be deemed unenforceable or void, this shall not impair the other provisions and the affected provisions shall be replaced by ones that come as close as possible to the intention of parties. The Dutch text shall take precedence in the event of an interpretation dispute involving texts in different language.
